Corporate Insolvency

With the proper support it is possible to lessen the impact of financial difficulties that face any business. Like any other phase of a business' evolution, the threat of insolvency can be managed effectively; at Berley we can provide the vital support a company needs during this difficult time.

Our objective is always to develop a rescue culture that allows trade to continue without jeopardizing the business itself or the value of any assets held. For example, restructuring the format of the business and identifying problem areas before they become insurmountable can help improve persistent problems such as poor cashflow.

Our broad range of experience covers all aspects of restructuring and insolvency. With the backing of our skilled team, we can help you to deal sensibly and commercially with problems as they arise. Formal insolvency procedures are undertaken as speedily, smoothly and painlessly as possible.

Berley can provide representation at creditors' meetings, on your behalf; on receipt of any notice of a creditors' meeting, just contact us and we will make all the arrangements.
